I. Purpose of the Committee

The Committee will have two major purposes:

(1) Review and make recommendations to the Vice President for Administration and Finance regarding any change in building, room, or outdoor space function; excluding auxiliaries and non-University owned property. This pertains only to space or scheduling issues that alter functional use.

(2) Review, schedule for in-house or contract performance, and identify funds for major renovations and alterations. Major renovations are defined as a service, which totally or partially upgrades a facility space or campus area to higher standards of quality or efficiency. Examples of major renovations are mechanical or electrical system upgrades (adding air conditioning, replacement of ceiling grids and lighting, etc.) or architectural improvements (carpet on floors, painting for reasons other than upkeep, etc.) Alterations are defined as the changing of internal arrangement or other physical characteristics of an existing facility space or campus area so that it may be effectively used for a different purpose. Examples would be conversion of a classroom into office spaces or division of a single office into suites.

The Screening Sub Committee will review the request and make recommendations to the Committee prior to its review.
