

ART 561 Local Color: The Art of Growing Dyestuffs and Foraging Pigments

Evaluation Questions

1. Describe how to grow or find sources of the primary colors (red, yellow, and blue), with reference to the plants and minerals we studied.
2. Describe the process of turning a dye plant or a mineral source into usable color for artwork.
3. How did you use natural dyes and pigments in the creation of your artwork? Discuss.
