

# Student Survey Analysis

**Department/Organization Name:** Computer Science & Information Technology  
Department

**Project Description:** Data Science

The student will consolidate responses for the graduating student surveys in the CS&IT Department and conduct an analysis of the results. The student will look for patterns and outliers in the data. A report detailing the results will be written and presented to the CS&IT Faculty.

Upon successful completion of this project, the student will be able to

- conduct data analysis for survey results
- write a report including appropriate data visualizations
- present findings of data analysis

Necessary Skills: Basic math skills and good written and oral communication skills.

**Desired Majors:** BS Computer Science, BS Data Science, Data Science minor, BS Math

**Approximate Length:** Winter Break (December-January); 10hrs; Remote

**Payment:** \$250 upon completion of the micro-internship

**Apply At:** Lisa Frye, Department Chair; Email: [frye@kutztown.edu](mailto:frye@kutztown.edu)
