

Student Learning Outcome (SLO) #8: Explore concepts, ideas and methods from a variety of disciplines.

Definition: Breadth of study is exposure to ideas from a variety of disciplines as defined by the course prefix. Through a transcript audit of graduating seniors, the number of different prefixes taken in the general education program is determined.

This SLO is met by completing the General Education Program.

Skill	Performance Rating Levels			
	4 (Excellent)	3 (Good)	2 (Fair)	1 (Poor)
Student Output and Quality of Work	11 or more different prefixes counted among courses taken for general education	10-8 different prefixes counted among courses taken for general education	7-5 different prefixes counted among courses taken for general education	3-4 different prefixes counted among courses taken for general education
