

## Gettysburg National Battlefield Internship Opportunity

Summer 2020 College Internship applications are now being accepted through December 31, 2019.

Undergraduate students looking for experience in visitor services, historical research and interpretation, and working with children and families are encouraged to apply.

Just send a cover letter outlining your career goals, a resume with relevant coursework and experience in customer service, public speaking, and working with families and children, as well as a reference list (no reference letters at this time please), as attachments, to [gett\\_education@nps.gov](mailto:gett_education@nps.gov) to be considered.

Selected candidates will report for duty for two weeks of training on May 26, and then spend the next 8 weeks working within our fast-paced visitor center, researching, preparing and presenting programs, and assisting with hands-on history carts and other family activities.

Free shared housing and daily workday stipend also provided.

Also remember that many other national parks offer summer internship opportunities, so be sure to contact other parks that you are interested in to further inquire about their specific programs and application procedures.
