

BLM WEEK 2025

"HERE & NOW"

April 14-19

"HERE & NOW" is more than a statement—it is a declaration! Through every challenge, every attempt to erase our history, our voices, and our impact, we remain. We have built, shaped, and transformed this nation, and we refuse to be silenced. This week, we **celebrate our culture, our creativity, and our collective power**. We honor those who came before us and empower those who will come after. **We are here. We have been here. And we are here to stay**
