

## **09720 WALL COVERINGS**

1. Where vinyl wall coverings are specifically requested by the University, the following minimum face weights should be specified:
  - a. Light weight (12 to 16 oz. per sq. yd.) for areas with light traffic or out-of-reach areas.
  - b. Medium weight (14 to 20 oz. per sq. yd.) for areas with average traffic such as offices and reception areas.
  - c. Heavy weight (20 to 26 oz. per sq. yd.) for areas with heavy traffic such as classrooms and corridors.
  - d. Provide adequate attic stock (equal to 5% of job) for patching and repair.
  - e. Provide 4' high corner protection for all "outside" corners in high traffic areas to protect against damage. Specify product similar to Korogard and include top and bottom caps.
