

## 09900 PAINTING

1. The Design Professional shall submit color samples for all painted surfaces. All colors must be approved by the University before incorporation in the construction documents.
2. Specify low-sheen or semi-gloss paint for walls, and gloss paint for metals. Avoid flat paint except for ceilings.
3. Specify heavy-textured coatings where wall surface defects are significant and must be covered.
4. No lead-containing paints shall be used, unless authorized in writing by the University.
5. Contractor shall provide to the University one full gallon of each color and type paint used, along with manufacturer's name and color formula number.
6. Approved paint vendors include:
  - a. Sherwin Williams
  - b. ICI-Glidden
  - c. Duron

Note: Specify low VOC where possible.

7. **Do not specify any multi-tone/color polymer paints.**
