GENERAL CONSIDERATIONS

Preplanning:

Reporting an emergency
Calling 911 or 610-683-4001 in an emergency or under stress will be difficult. Preprogram your phone for one-touch dialing.

Receiving emergency notifications (KU Alert)
KU Alert notifications may be delivered in a number of ways:
1. Cell phone/text message – however, be aware that cellular phone coverage in some buildings may not permit receipt of phone calls or text messages.
2. Email – an email with pertinent information related to the emergency will be sent to all campus email addresses.
3. Voice Communication System – if the emergency is imminent, emergency information will be transmitted via the on-campus voice-communication system inside and outside campus buildings.

Class Roster
In an emergency your class roster may be used to identify who was in the building for accountability purposes.

Evacuation:

Have an evacuation route planned
Posted evacuation plans are located on each floor of a building. Become familiar with these routes.

Know your destination
Identify a location you can flee to that is at least 500 yards away from the danger zone.

Don’t take personal property
Leave personal property behind as carrying items with you can slow you down.

Do not stop
An evacuation takes seconds if you do not stop. As you evacuate, tell others that you encounter to evacuate but do not engage in discussion or prolong the time it takes to exit away from danger.

Consider the windows
If you cannot make it to an exit, consider going through a window. Do the windows open? What floor are you on? Are there bushes or mulch that can break your fall?

Stay together
Keep your group together until dismissed by police.

Do not use the fire alarm to evacuate
Do not pull the fire alarm in an attempt to have people evacuate the building.

Shelter in Place - Lockdown:

Locking the door
Does the door have a lock? Is the lock functional? Do you need a key to activate the lock? Do you have that key?

Does the door open in or out?
Doors that open into the classroom can be barricaded with heavy objects inside the room.
Doors that open out into the hallway cannot be barricaded. Reconsider evacuation or move to another room. If not possible, attempt to tie the door closed with an extension cord, belt, or anything that can be wrapped around the door handle.

Barricade the door
If the door does not have a lock, place heavy items inside of the room in front of the door. If there are no heavy objects, consider wedging the door or going to another location.

Do not stand in front of the door or windows
Stand out of sight and do not stand in front of doors and windows. Avoid huddling together in a mass.

Stay Quiet
Turn off lights, silence cell phones, turn off computers.

Evacuation:

Sheltering:

NEVER open the door
Once you are secure, you should never open the door for any reason. Responding police will open the door for you.

Preplanning:

I have programmed my cell phone to dial 911 and 610-683-4001.
I have implemented a plan to receive text alerts through the KU alert system.
I have advised my class that I have an emergency plan and that they are to follow my instructions should an emergency occur.

______________________________________________________________________________
______________________________________________________________________________

Evacuation:

I have reviewed the building evacuation plans.
I have identified my closest exit, and I routinely check the route to this exit for obstructions.
I have identified a location to take my class away from the danger area. It is ______________________.

______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________

Sheltering:

I have identified a way to barricade, tie, or secure the door in absence of locks.
I will not open the door once it is secured.

**ACTIVE SHOOTER FAQ**

**What steps is Kutztown University taking to provide safe classrooms?**

While no institution can guarantee absolute safety in the classroom or on campus grounds, KU has taken the issue seriously and works continually to improve the safety of the university’s campus and classrooms. The guidelines in this FAQ are just one step toward a safer educational environment. Among the actions the university has taken are these:

1. Purchase and activation of an emergency text messaging system.
2. Use of the KU Website Homepage to notify the campus community of an emergency.
3. Implementation of an external emergency notification system.
4. Regular tests of the emergency telephone and call box system on campus.
5. The Emergency Management Team (EMT) collects information about possible threats and recommends actions based on the determined threat.
6. Training by the Public Safety & Police Services Department of all police officers on how to respond to an active shooter incident: Several of the Public Safety administrative staff are considered experts on the subject of active shooters and ensure that the department is trained in and equipped for the most up-to-date tactics and strategies.

**In the event of an emergency, what is my responsibility?**

Many experts in this field believe that, along with campus officials, faculty are important partners in providing for the safety of their classroom students in the event of an emergency. While anticipating every detail of an emergency is impossible, by planning ahead, everyone can greatly improve students’ and their own odds of surviving the emergency.

**In the event of gunfire in my classroom building, should I evacuate my class, or should we stay where we are and barricade the door?**

Statistically, the more distance you place between yourself and someone firing a weapon, the higher the probability that you will escape injury. Therefore if you hear gunfire, your first course of action should be to evacuate yourself and students away from the danger if you can safely do so. You should only consider sheltering in place or elsewhere within the building if evacuation is not possible.

**Would locking the classrooms during classes deter a shooter?**

Most KU classrooms have locking doors. If you wish to engage the lock while teaching your class, you should arrange to do so but relying solely on locks for safety has two fundamental problems. Most classroom doors have a glass window and any modern firearm is powerful enough to shoot through even tempered or safety glass. The second issue is that modern firearms may be powerful enough to destroy the locking mechanism on the door. A shooter could then easily unlock the door or reach victims through the glass.

**What should be considered in making emergency plan?**

1. Identify the type of emergency for which you are planning. This FAQ is designed to help you plan for an active shooter emergency.
2. For an active shooter situation, select and become familiar with an area or building where you could most likely evacuate. Your evacuation site should be approximately 500 yards (five football fields) away from the incident. Ensure that the site will be open and accessible during your class hours. Also select at least one alternative site and become familiar with it, too.
3. Become familiar with all of the emergency exit routes in your classroom building. Determine at least two routes that you could take to evacuate yourself and your class from the building. Remain aware day-to-day of what is happening on these routes. For example, maintenance work could temporarily hinder access to a route.
4. Although sheltering in the building should be your last recourse, also plan for the possibility that you and your class may not be able to leave your building. Select a shelter area in the building that will afford you the best concealment and cover. If you select your room, identify heavy items in the room that could be used to barricade the door. Consider whether the barricade would be visible through a window in the door and therefore indicate to an active shooter that possible victims are just beyond the door. Is there an interior room — without windows but with a lock — into which you could move and possibly go unnoticed by an active shooter?

**What other steps should I take to prepare in advance for an emergency?**

1. If possible, it is encouraged for faculty to take roll at the start of each class. Prepare to take the attendance list with you in the event of an evacuation. Your attendance record will aid rescue personnel in determining who may still be in the building.
2. Program your cell phone to speed dial 911 (Berks County Emergency Services) and 610-683-4001 (KU Public Safety & Police Services).
3. Rehearse what you will need to tell an emergency dispatcher, including your name, what is happening, your location, whether injured persons are with you, and what you observed while you were evacuated.
4. Once you have developed your emergency classroom plan, advise others in your area that in the event of an emergency, you have a plan; however do not share the plan. Letting others know that you have planned for an emergency will give them confidence in you and increase the likelihood that they will follow your directions. The university does not publicize emergency evacuation sites because active shooters have, in the past, used such pre-designated sites as targets for their violence. For this same reason, your emergency plans should be kept confidential.
5. Consider one of three options to allow that your class may receive an emergency text message should one be sent: 1) allow cell phones to be left on and silenced during class; 2) designate several individuals to leave their cell phones on and silenced during class; or 3) leave on your own personal cell phone.

**I still don’t feel comfortable; what is my next step to receive more information?**

Everyone is encouraged to contact the Police Chief if they would like additional information or would like to discuss emergency planning. A wealth of information is also to be found on the Internet. The following Web site may be particularly helpful: www.kutztown.edu/safety.

This site also includes a link to a video on Run, Hide, Fight.
