Carrie Babb
Student Research Award

Overview

When the Carrie Babb Scholarship endowment contains unexpended funds following the awarding of scholarships, the Department of Geography, at its discretion, will publicize Carrie Babb Award(s) for student research. Award amounts will be modest and variable.

General Criteria

To be eligible for a Carrie Babb Student Research Award, the applicant must:
1) be a Geography or BS Environmental Science/Geography major in good academic standing,
2) secure faculty oversight of the project,
3) provide a detailed itemized budget, and
4) complete the application form on the reverse side of this document.

Detailed Project Description

As part of a complete Carrie Babb Student Research Award application, the student is required to submit a detailed project description. This should include a discussion of the course and/or professional outlet for which the research is intended. Also to be discussed is how the research project will enhance the student’s academic program at KU. All equipment, data, and travel costs associated with the research project must be described in an itemized budget.

Application Evaluation

Applications will be evaluated by the faculty of the Department of Geography and reviewed on an “as received” basis. Applications will be accepted and reviewed as long as Student Research Awards are available.
