BACITRACIN OINTMENT

TYPE OF DRUG: Local topical antibiotic

PURPOSE: Topical infections, abrasions, cuts, scrapes, minor burns or wounds

CONSIDERATIONS: Clean skin before applying ointment, especially if skin is crusted; apply thin film to affected area 1-3 times daily based on the severity of condition. Area may be covered with a sterile bandage. For external use only. Do not use in the eyes or apply over large areas of the body. Do not use for longer than one week. In case of deep or puncture wounds, animal bites, or serious burns, consult a physician or medical professional before applying. Discontinue use and consult a medical professional if you develop a rash, itchy skin, burning, stinging or swelling of the lips or face.

CONTRAINDICATIONS: Persons allergic to Bacitracin, Neosporin or Triple antibiotic ointment should not use this Product
