Dear Head Coach/ Athletic Trainer,

We would like to welcome you, your team and staff to our campus. We hope this brochure will make your planning easier and answer any questions you might have regarding the care and safety of your athletes.

We look forward to visiting with you when you arrive. If you have any questions, please don’t hesitate to contact one of our staff.

-------------------------------------------------------------------------------------------------

Services Available for Visiting Teams

Due to staffing and scheduling, if your team is traveling without an Athletic Trainer, you need to call ahead to verify whether our staff will be able to handle your team’s pre-event needs. A certified athletic trainer will be available during all contests and after each event, as needed.

1. All therapeutic modalities are available only if a certified athletic trainer accompanies your team.
2. Water, ice and emergency items will be provided at each event.
3. You MUST bring your own taping supplies, cups and/or water bottles.
4. Please call at least 48 hours prior to the event for any special needs.

Sports Medicine Visiting Team Webpage

Kutztown Sports Medicine Services

The Department of Sports Medicine Services is a Division of Health & Wellness Services, and provides medical services to 22 men’s & women’s intercollegiate athletic teams, comprised of nearly 600 student-athletes. The staff operates one facility located in Keystone Hall, Rm 124.

On campus, the University’s Health and Wellness Services, headed by John Green, Associate VP of Advancement, Marketing and Relations. Medical Director Eugene Fellin, D.O. and his associates, provide all essential health care services to the University’s student population and are our team physicians for student-athletes. Gary Canner, M.D. and his associates of Berkshire Orthopedic Associates of Wyomissing, serve as team orthopedists.
