**Student Learning Outcome (SLO) #7:** Demonstrate an understanding of various models for the development of the whole self.

**Definition:** Students identify best practices for self-development in areas such as finance, wellness, spiritual well-being, academic success, and professional motivation. Life skills and life-long learning are emphasized.  
**This SLO is met in General Education FYS – Discovering College** and the First year Seminar Course.

| **Student output and quality of work** | • Identifies complex models to assist in self-development in a variety of areas  
• Accurately translates a model’s process and procedure to their own situation  
• Effectively applies model to current situation  
• Accurately evaluates the current and displays consideration of future success of the model after implementation  
• Adjusts model to reflect self-awareness of success and failures. | • Identifies basic models to assist in self-development in a variety of areas  
• Translate most of the a model’s process and procedure to their own situation  
• Applies model to current situation  
• Adequately evaluates the success of the model after implementation  
• Makes some adjustments to the model to reflect some self-awareness of success and failures. | • Recognizes models to assist in self-development in some areas when model is provided  
• Transfers a model’s process and procedure to a hypothetical situation  
• Applies model to parts of their current situation  
• Reviews the success of the model after implementation  
• Needs some direction to adjust model to reflect some self-awareness of success and failures. | • Unable to identify appropriate models to assist in self-development in a variety of areas  
• Cannot transfer a model’s process and procedure to a situation  
• Does not make the connection between model and their own situation  
• Unable to evaluate the success of the model after implementation  
• Unable to adjust model to reflect awareness of success and failures. |
